DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Patent Number 2,721,641 by Eames ("Eames"). The coin insertion device disclosed by Eames comprises coin passage 17 having insert and discharge openings, shutter member 18 that opens and closes by rotating about an axis, holding means 23 that retains said shutter member in a closed state and releasing means 21 (see Figure 3; and column 3, lines 32-55). When a coin is inserted into said insert opening it presses against the release means to permit the shutter member to be released to an open state.
